

Keep the areas around your home or business ice free this winter !!

Fall-Winter 2016/17

SOS™ series storage bins are nestable into each other to save space. Versatile, they come in a variety of formats to suit different storage needs. The bins are made of sturdy polyethylene resistant to extreme temperatures. These popular bins are mainly used for storage of sand, salt or any other products left outside. They are known to be tough and durable.

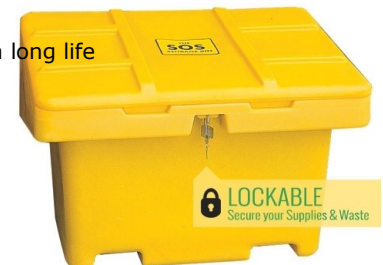

Proudly made in Canada for tough Canadian Winters.
